## ***Five Factors for Cleaning***

### **Water Quality**

- High levels of water hardness & dissolved solids (TDS)
- Water quality must be accounted for when washing and blending detergents

### **Soap Pressure**

- Applying detergents at higher pressure will improve brushless cleaning and increase efficiency

### **Temperature**

- Water temperature and atmospheric temperature will affect detergent performance
- For every 18 degrees in temperature rise, molecules move twice as fast

### **Detergent Concentration**

- Relative strength of detergent blend used AND the dilution rate of application method

### **Dwell Time**

- Too much means soaps could dry or cause harsh reaction; too little means not enough reaction

### **Request a Five Factor, Cleaning System Check Up from High PSI**

Did you know water quality of is one of the leading factors in whether a detergent works well or not? Did you ever wonder what's in your detergent? We offer a program where we will come in free of charge to check the following:

### **What We Will Test**

- Check heat and pressure of your pressure washer
- Testing of water hardness with a TDS meter
- Testing pH level of your detergent
- Test the concentration level of your existing detergent with a refractometer
- Test the concentration level of detergent at the end of your gun & wand

### **What You Will Learn From this FREE Analysis?**

- You'll know if your equipment is operating at optimal cleaning performance
- You'll know how hard or soft your water is
- You'll know whether you are using a concentrated or pre-diluted product
- We will give you recommendations on how you can improve cleaning performance

## 1 & 2 Step Fleet Wash Products

### #1 Pre-Soaks - For None Polished Aluminum Fleets

#### SUPERSONIC PRESOAK

Is an aggressive low pH presoak that is formulated for the fleet cleaning industry. It cleans and brightens aluminum while having the capability to clean surfaces where finger prints, greases and oils are present. Can be paired with Grizzley or Panda for a touchless 2-step cleaning process. Use through a pressure washer with dilutions from 10:1 - 25:1.

- Safe on painted surfaces
- Helps break down carbon based soils like oils and greases
- Removes paint oxidation
- Brightens aluminum
- Do NOT allow to dry on glass - NOT safe on polished aluminum
- Pairs extremely well with Grizzly in 2-Step Fleet Washing

*Contains sulfuric acid. NOT to be used on a polished aluminum. Do NOT allow to dry on glass. Consult Safety Data Sheet for further safety information*

#### #1 COUNTERPUNCH

A uniquely formulated heavy duty low pH presoak that is safe on polished aluminum. It mildly brightens aluminum while having the capability to clean all surfaces where fingerprints, greases, and oils are present.

#1 Counterpunch is very versatile and recommended to be used with Panda or Grizzly depending on the fleet.

- Safe on painted surfaces
- Safe on polished aluminum
- Helps eliminate brushing
- 100% Biodegradable & phosphate free
- Removes paint oxidation

*Contains sulfuric acid. Consult Safety Data Sheet for further safety information*

## 2nd Step Detergents

#### GRIZZLEY

Grizzly is a heavy duty alkaline truck wash soap that is excellent at removing stubborn road film, bug residue, soot, oils, and grease. It is brown in color and has a foam profile that clings with great rinsability. Developed to penetrate road film and leave an amazing shine on the paint.

- Clingy foam profile for maximum penetration
- Easy rinsing
- Helps eliminate brushing
- 100% Biodegradable & phosphate free
- Assists in breaking down carbon based soils like oils and greases
- Leaves paint looking glossy when used as a 2nd step in fleet washing.

*Contains Sodium Hydroxide. Not to be used on anodized or polished aluminum. Do not allow to dry before rinsing.*

## 2nd Step Detergents

### **PANDA**

Panda is a high pH truck wash soap formulated to be the 'polish safe' version of our popular Grizzly soap. Panda works well on road film, bugs, and general greases and oils. It has an excellent foam profile that clings and is easy to rinse. Pairs best with #1 Counterpunch for the ultimate 2 Step clean on polished aluminum.

- Clingy foam profile for maximum penetration
- Easy rinsing
- Helps eliminate brushing
- 100% Biodegradable & phosphate free
- Assists in breaking down carbon based soils like oils and greases
- Leaves paint looking glossy when used as a 2nd step in fleet washing

## Fleet Wash Products

### **GLISTEN**

#1 selling vehicle wash! Wash your fleet vehicles to a lustrous shine with Glisten's waxing-like agents, and even use for light degreasing!

### **ROAD RUNNER**

Road Runner is a premium formula, brushless fleet wash detergent. This panel brightening product removes the heaviest of road films!

### **SUPER POWERHOUSE**

Our toughest, economical combination Vehicle Wash and Degreaser. Super Powerhouse can tackle some of the toughest greasing jobs while still cleaning Heavy Duty vehicles and equipment safely!

## Degreasers

### **SLUDGEHAMMER**

This concentrated cleaner/ degreaser tackles every cleaning challenge! It is designed for prespray application and is safe to run through your unit's chemical injector. Contains potassium hydroxide.

### **ORANGATANG CITRUS DEGREASER**

Orangatang ushers in a new age of cleaners/ degreasers. Formulated with no caustics, acids, phenols, petroleum solvents, chlorinated/fluorinated solvents, or butyls. Extremely effective in the removal of oils. Powerful non-caustic, non-butyl degreaser formulated with a high performance surfactant package for excellent oil emulsification. Contains a pleasant citrus fragrance. Versatile for use on hard surface cleaning.

## Aluminum Brighteners

### **ADVANCED FORMULA ALUMINUM BRIGHTENER**

Designed to clean and restore stained aluminum surfaces without "burning" the surface applied to. it is best used on frame rails and unpainted aluminum surfaces. Do NOT use on glass, polished aluminum or anodized aluminum. Contains no phosphates.

### **POLISHED ALUMINUM BRIGHTENER & STAINLESS STEEL CLEANER**

This non-etching specialty cleaner contains a concentrated blend of surfactants and glycol ethers to quickly penetrate and remove dirt, grease, oil, road film , diesel smoke and welding smut. A mild aluminum brightener for polished tanks and other polished work on your equipment. Removes the road film that clings to aluminum.

## Graffiti Removers

### **ELEPHANT SNOT**

Environmentally friendly and tough graffiti remover for porous surfaces such as concrete, brick and mortar.

### **SMOOTH MAX**

Environmentally friendly. Use on smooth surfaces such as aluminum, glass and plastic.

### **SHADOW MAX**

Used when graffiti has been allowed to sit too long. Use after Elephant Snot, soaks deep into the surface pores.

### **MAX SWIPES**

Towelettes ideal for removing marker and other small graffiti spots from smooth surfaces like plastic playground equipment

## Specialty Cleaners

### SALT LICK

A 2 in1 salt neutralizer and fleet wash. Formulated to remove salt, calcium chloride and de-icing solution. Breaks down the crystalline structure of ice melt products and prevents re-crystallizing so they can be washed away.

### CON-B-GONE

A fast acting acidic product. Apply to ready mix trucks, forms and tools. Will soften dried concrete splatter, rinse away with a hot or cold pressure washer. Works great with a foam cannon. Effective on green concrete, 21 days old or less.

### ASPHALT XL-71

A safe, effective alternative to chlorinated solvents. Approved by or meets the product specifications for states requiring high flash solvents. Use the product straight to remove tar splatter and buildup from tools and equipment through a METAL pump sprayer. *Call for Pricing.*

### OIL EXTRACTOR

Effective on petroleum based grease and oil stains. Removes food based grease and oil stains, fast acting, ready to use formula.

### STAIN AND RUST BUSTER

Effective on common stains: non-greasy foods, beverage spills, leaves, moss and more. Removes rust stains. Concentrated formula.

### EFFLO-OFF

Removes stubborn efflorescence, heavy duty surface cleaners, prepares unsealed surface for sealing. Concentrated formula.

### SURE CLEAN

Powerful cleaner for routine maintenance and restoration. Removes embedded soil & tire scuffing. Prepares unsealed surfaces for sealing. Super concentrated formula.

### VITAL OXIDE

Vital Oxide is an EPA registered disinfectant cleaner, mold killer and super effective odor eliminator. ***For use against SARS-COV-2 (covid-19) and other viruses.*** Ready to use with no mixing required, just spray, wipe or fog right from the bottle. Non-irritating to the skin and non-corrosive to treated articles.

*EPA registered for killing Covid-19*
