

# 9400 SERIES

## FEATURES

6 to 10 GPM  
@ 3200 Max PSI

# hotsy®

PRESSURE WASHERS / SINCE 1970

HOT WATER

ELECTRIC

The 9400 Series heater modules gives the flexibility to “convert” a cold water pressure washer into a hot water unit. By attaching the heater module to a cold water pressure washer, the pressurized water is now heated to produce all the benefits of hot water cleaning. The four models use fuel oil, diesel or natural gas to heat the water using Hotsy's high-efficiency, vertical heating coil.

We recommend using the Hotsy 1700 Series stationary cold-water pressure washers.

All models operate on 115 V and are ETL safety certified. Gas-fired models feature electronic ignition. They are designed to attach to cold water pressure washers with cleaning power of 6 to 10 GPM and up to 3200 PSI.

## OPTIONS FOR 9400 SERIES

10" Natural Gas-Fired Draft Diverter

12" Natural Gas-Fired Draft Diverter

10" Power Dampener

12" Power Dampener

Natural-Gas to LP Conversion for Model 9452

Natural-Gas to LP Conversion for Model 9462

| MODEL | PART NO.    | PSI (MAX) | GPM (MAX) | GPM (MIN) | VOLT/PH | BTU/HOUR | AMP | FUEL              | DIM (LXWXH)     | SHIP WT (LBS) |
|-------|-------------|-----------|-----------|-----------|---------|----------|-----|-------------------|-----------------|---------------|
| 9450  | 1.103-905.0 | 3200      | 10        | 6         | 115/1   | 700,000  | 8   | Oil-Fired         | 32.5"x25"x50.5" | 525           |
| 9452  | 1.103-906.0 | 3200      | 10        | 6         | 115/1   | 540,000  | 1   | Natural-Gas-Fired | 32.5"x25"x50.5" | 500           |
| 9460  | 1.103-907.0 | 3200      | 10        | 6         | 115/1   | 920,000  | 8   | Oil-Fired         | 40.5"x32"x65"   | 920           |
| 9462  | 1.103-908.0 | 3200      | 10        | 6         | 115/1   | 920,000  | 1   | Natural-Gas-Fired | 40.5"x32"x65"   | 935           |

**NOTE:** We are constantly improving and updating our products. Consequently, pictures, features & specifications in this brochure may differ slightly from current models. Flow rates & pressure ratings may vary due to variances allowed by manufacturers of our machine components. We meet the CETA testing specs for machine performance at +10% and in some cases are tighter within +\_ 5% of listed specifications.

Specifications & product descriptions subject to change without notice. Hotsy's manufacturing facilities have established and apply a quality and environmental management system to be ISO 9001:2008 and ISO 14001:2001 certified.
